Another railway station is located in the nearby community of Oker.

Arrival by airplane

The closest international airport is [Hannover Airport \(HAN\)](#) . From there you can either drive directly by rental car or take the S-Bahn train to the Hanover Central Station and board one of the hourly connections to Goslar.

The closest local airport is the [Airport Braunschweig-Wolfsburg](#) . Unfortunately, this airport is not connected to the public railroad network so that either a rental car or a local train from Braunschweig Central Station is necessary.
